

## July 2014 YAA Survey-Agricultural Research

Yukon Agricultural Research is now focused on a multi-year research plan going to 2018. The plan is being implemented by an industry and government research committee who are looking for input from the membership to make sure the research is on the right track.

On a scale of 1 to 5, where 1 is “I have no interest” and 5 “yes very interested”. Please rank the following research areas based on your farming interests:
